The MSF, ETSI and GSMA are pleased to invite your company to participate in the RCS VoLTE Interoperability test event to be held from the September 24 – October 12, 2012 (see below detailed schedule). The test event will take place in two labs, hosted by Telecom Slovenia Group and Sintesio, in Kranj, Slovenia, and China Mobile, at the China Mobile Research Institute Laboratory in Beijing, China. Verizon is the operator sponsor.

**IOT Participation Fees and Benefits**
The following participation fees are paid on a per company basis with no additional cost to participate at multiple sites.

- **MSF Members:** $9500
- **ETSI Members:** $9500
- **GSMA Members:** $9500
- **Non-Members:** $12500

**IOT Operator Observation Fees**
- **MSF Members:** Participation fee is waived
- **ETSI Members:** Participation fee is waived
- **GSMA Members:** Participation fee is waived
- **Non-Members:** $1000

**Schedules for each test site are as follows:**

<table>
<thead>
<tr>
<th>China Mobile Research Institute</th>
<th>SINTESIO</th>
</tr>
</thead>
<tbody>
<tr>
<td>Set up week: September 17 – 21, 2012</td>
<td>Set up week: September 24 – 28, 2012</td>
</tr>
<tr>
<td>Second test week: October 8 – 12, 2012</td>
<td>Second test week: October 8 – 12, 2012</td>
</tr>
<tr>
<td>Event completion: October 12, 2012</td>
<td>Event completion: October 12, 2012</td>
</tr>
</tbody>
</table>

**IOT Event Participants are entitled to:**
- Participate as IOT Participating Company
- Face to face IOT Meeting access for up to 2 company representatives
- Teleconference IOT Meeting access for up to 4 company representatives
- Access to all IOT documents and meeting minutes
- Submit IOT related contributions
- Ability to participate in IOT Sponsorship Program
- Company Logo on IOT Event Website
- Company Logo on IOT Event Whitepaper
Registration
Step 1: Identify the main contact within your company to be responsible for:
- Registering the company and all participants.
- Dealing with the payment of the event fees.
- Having the event NDA signed.
- Marketing and PR Contacts.

Step 2: Identify at which Lab Site your company would like to participate. Note that remote participation will be permitted within the constraints that UEs/endpoints, eNBs and test monitoring equipment must be located in a host site. Other equipment may be located remotely but the participant company must elect a lab site which will connect to the remote equipment via VPN technology and all remote network elements must be observable (i.e. traces can be captured back at the lab site). In addition, each participant company must have at least one representative present at the lab site associated with that company’s equipment for the duration of the event (inclusive of remotely located equipment).

The main contact for your company can indicate your interest in participating in the RCS VoLTE IOT Event by sending an email to Ashley Wright (awright@msforum.org).

The current application window will be open until July 30, 2012. The planning committee will review the applications after each window has been closed and applicants will be advised of the decision. Space is limited and participation cannot be guaranteed.

NDA/Contract Requirements
An MSF Non-Disclosure Agreement (NDA) and Contract are required to be signed by all IOT participation companies and IOT Observers.

Additional information can be found at: http://www.msforum.org/interoperability/RCSVoLTE.shtml.

The MSF, ETSI and GSMA look forward to your participation in this major industry event.
