

Multiservice Switching Forum Speaker Policy

**ADOPTED
1/4/00**

The MSF often provides speakers to external events such as conferences. These speakers should meet both of the following criteria:

- 1) The person should have attended 3 of the last 4 MSF meetings

- 2) The person should be an active and significant contributor to the forum through activities such as board membership, chairing committees, editing documents, taking minutes, liaising with other industry bodies or through significant contribution to the progress of a committee or working group.

The MSF Board of Directors and Marketing Awareness and Education Committee will assess proposed speakers with respect to the above criteria when making a decision on MSF representation.
